Why take the PSAT?

- To see how your academic skills compare to those of other college-bound juniors across the nation. You can use this information to select appropriate classes in high school to help you prepare for college.
- To begin the college search process. You can place your name in a pool of college-bound students interested in receiving admission and financial aid information from participating universities and scholarship agencies.
- To practice for the SAT---one of the two admissions tests accepted by every college in the country. Students who take the PSAT typically do better on the SAT than those who do not.
- To enter the National Merit Scholarship Competition (Juniors Only) - Get considered for this and other scholarship/recognition programs.

You will be given additional information and study materials closer to the test.
